# Take the uncertainty out of IVF

Undergoing IVF treatment can be a stressful time, both personally and financially. Access Fertility helps to take the uncertainty out of IVF by offering treatment with a money-back guarantee if you do not have a baby.

Access Fertility IVF Refund Programmes include multiple IVF cycles with the added security of a refund if you are not fortunate enough to have a baby.

Offering multiple cycles means we can provide our treatment programmes at a significant discount compared to standard pay as you go IVF options.

Our Multi-Cycle Programmes (two IVF cycles) do not include a refund but give you the benefit of an even bigger discount compared to standard IVF costs.

Access Fertility treatment programmes mean you can start your IVF treatment confident that you have a plan in place.
